

The Accelerated/Gifted Program at Silver Bluff Elementary

We provide an accelerated/gifted program for students in grades K - 5th.

*Our Accelerated/Gifted
Curriculum offers:*

Creativity

Create a new innovative model.

Critical Thinking

How can your created
innovation model impact the
world?

Collaboration

Work in collaborative learning
groups to complete your
innovative model.

Communication

Articulate and present your
findings through research, then
model your innovation using
technology.

Meeting the Needs of Our Gifted Students

At Silver Bluff Elementary, we promote enthusiasm by providing opportunities for exploration through a hands-on, minds-on, learning approach. This experience helps students articulate empathy, encourages creativity, and promotes cognitive processing.

Our Research Based Theme

The Accelerated/Gifted Education Program emphasizes a quantitatively differentiated curriculum based on content, concepts, processes, and applications through products/projects in language arts, mathematics, science and/or social studies. Such a differentiated curriculum provides for in-depth consideration of topics and concepts beyond the requirements of regular courses, and therefore, is designated as an academically accelerated program.

Ways to Support your Accelerated/Gifted Child at Home

- Help your child discover his or her own personal interests.
- Listen and speak to your child with consideration and respect.
- Read aloud and discuss the content with your child.
- Encourage your family members and friends to help you in supporting your child.
- Use high rigorous vocabulary when communicating with your child.
